

5th October 2022

## Going global at SuiteWorld 2022 in Las Vegas.

SuiteWorld 2022, the international e-commerce conference powered by Oracle NetSuite, was held at the iconic Caesars Forum this week in Las Vegas.

Extel had the opportunity to attend the show and not only was it fantastic to be back meeting like-minded innovators, but our CEO Bruce Fitzgerald was also able to speak openly on Sky News about the internal and market impact of Covid-19, strategies for penetrating a global market during this time and how Oracle NetSuite is enabling Extel's remote, connected, and global standard of operations.
